

I urge you to uphold Indiana's "No-call List" telephone privacy act. Since placing my telephone number on this list, the number of nusiance calls I receive has decreased from 3-5 per day to less than once per week. As a caregiver for an elderly relative, I receive a number of calls from concerned family and medical personnel; however, many times I rush to the phone only to find a telemarketer offering me a product I don't need. With the availability of numerous marketing methods, including internet, radio, TV and direct mail, any benefits of cold-calling to the telemarketers are outweighed by the intrusion to the individual called.

Thank you for the opportunity to comment.
